

YOUR SINGLE SOURCE FOR RELIABILITY IN LEVEL INDICATION & CONTROL, SIGHTFLOW INDICATION, FILTRATION & SEPARATION

Founded in 1884 as the Reliance Gauge & Column Company, Clark-Reliance® has a long and rich history that abounds with innovation. It all began with what would be the company's first breakthrough product a low water alarm for boiler operators. Using floats attached to a steam whistle, this revolutionary device would sound an alarm when water conditions became unsafe. Although the first, this is just one of the many pioneering products the forward-thinking engineers at Clark-Reliance have developed throughout the years.

Clark-Reliance is dedicated to supplying the largest and broadest product line in the instrumentation industry for all types of measurement and control. Key acquisitions over the last few decades have solidified

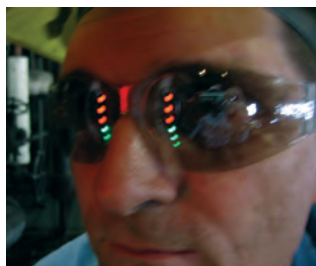

Clark-Reliance as a leader in the separation and filtration industry.

Clark-Reliance now includes a number of distinguished product lines: Jerguson®, Jacoby-Tarbox®, Magne-Sonics®, Anderson® Separator and National Filtration Systems®, Oil Filtration Systems®(R), and Enervac™. In 2004, years of growth and numerous acquisitions led to a corporate-wide reorganisation. Today, each of the company's product lines falls under one of three new operating groups: Clark-Reliance Instrument and Controls Group, Clark-Reliance Filtration Equipment Group and Clark-Reliance Filter Elements Group. The new organisation has allowed for a more unified, integrated, service-driven corporation. The company's main goal is to provide world-class customer service, quality products and innovation to the petrochemical, refining and power generation industries. The years to come holds great promise for Clark-Reliance as the company continues to diversify their product lines and seek new acquisitions.

JERGUSON® - World Leader in Liquid Level Indication & Control. Magnetic Gages, Guided Wave Radar, Glass Level Gages, Transmitters & Switches, Valves & Illuminators, Level Switches

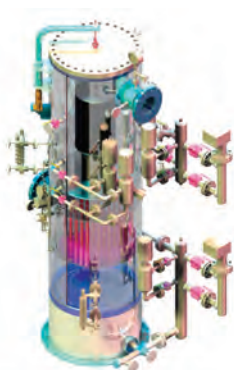

CLARK-RELIANCE® - Boiler Level Instrumentation. Gage Glasses, Water Columns, Alarms, Level Switches, Low-Water Cut-Out, Remote Level Indicators / Controls

JACOBY-TARBOX® - Sight Flow Indicators, Safety Glass /Windows, Hygienic Equipment & Educators

CLARK-RELIANCE® - Filtration Group. Fuel Gas Conditioning, Hydraulic, Lubrication, and Fuel Oil Purification Equipment, -Vacuum Dehydration Oil Purification Systems (VDOPS) -Varnish Removal Systems -Fuel Filtration & Coalescer Systems -Portable Filter Carts & Skids, Filtration Elements, Separation & Filtration, Steam Drum Internals
